IIJ GROUP PRESS RELEASE

IIJ Global Wins Okta Platform Partner of the Year Award

TOKYO—June 15, 2026—IIJ Global Solutions Inc. (IIJ Global)—provider of global network and security solutions including SASE for enterprises and wholly owned subsidiary of Internet Initiative Japan Inc. (TSE Prime: 3774; IIJ)—has received the “Okta Platform Partner of the Year” award at the FY26 Partner Award Japan. The award was presented by Okta Japan K.K., the Japanese subsidiary of identity management leader Okta.

The award is given to partner companies that have made exceptional accomplishments in the Japan domestic market. This year’s award recognized IIJ Global for its success both in winning large-scale orders for Okta Platform products and in upselling to existing customers, as well as for its major contributions to enhancing Okta’s brand recognition and promoting use of Okta solutions through the launch of the new Okta Solution LAB* and other initiatives.

Among IIJ Global’s strengths are SASE and SSE services aimed at achieving Zero Trust security in enterprises. By combining these with the identity management products of Okta and others, IIJ Global is comprehensively providing authentication, authorization, privilege management, and life cycle management, with identity as the starting point. In this way, it is raising security levels across the entire enterprise while improving operational efficiency, and is helping companies to achieve sustainable security management in line with business growth.

*A program for companies considering Okta products that lets them experience the products through demonstrations and other means.

IIJ Global lives up to its brand slogan "SAIZEN⁺"—an integration of the messages “Leading the Forefront” and “Guiding to the Best”— by harnessing cutting-edge technology and expertise to continuously deliver optimal solutions. Building on this recognition, IIJ Global will continue providing the value of “SAIZEN⁺” to its customers and stakeholders through its extensive lineup of network security solutions.

About IJ Global

IJ Global Solutions Inc. (IJ Global) was established in September 2010 as a subsidiary of the IJ Group following the acquisition of AT&T Japan's local Network Outsourcing service business. IJ Global offers a comprehensive range of services including WAN Connectivity and Total Network Outsourcing, covering everything from design to management of corporate networks. Beyond serving domestic markets, IJ Global also provides Global network services and has expanded its offerings to include network security solutions tailored for enterprises, such as Secure Access Service Edge (SASE). For more information about IJ Global and its services, please visit our website at <https://www.ijglobal.co.jp/en/>.

About IJ

Founded in 1992, IJ is one of Japan's leading Internet-access and comprehensive network solutions providers. IJ and its group companies provide total network solutions that mainly cater to high-end corporate customers. IJ's services include high-quality Internet connectivity services, systems integration, cloud computing services, security services and mobile services. Moreover, IJ has built one of the largest Internet backbone networks in Japan that is connected to the United States, the United Kingdom and Asia. IJ was listed on the Prime Market of the Tokyo Stock Exchange in 2022. For more information about IJ, visit the official website: <https://www.ij.ad.jp/en/>.
